**PRODUCT CATALOGUE**

## SOLE FEATURES

### Electrical Resistant

Electrical Hazard (EH) Protection reduces the danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18

### Antistatic

Minimises the build up of electrostatic charges and provides protection against the risk of spark ignition for such hazards as flammable materials and gases.

### Electrostatic Discharge (ESD) Protection

Electrostatic discharge protection (ESD) to protect wearers from damaging sensitive electronic equipment or igniting flammable materials.

### HYDROstop®

Offers a 3 year guarantee against the effects of hydrolysis and microbiotic attack on the sole.

Heat resistant sole (266° F)

Heat resistant sole (572° F)

Abrasion resistant sole

Sole resistant to organic oils and fats

Sole resistant to mineral oils and acids

Cut resistant sole

## SPECIAL FEATURES

### Metatarsal Protection

Provides increased protection against the risk of impact and crush injuries. Metatarsal guards coupled with safety toe caps offer complete fore foot protection.

### Sole Penetration Protection

Offers the reduced risk of sharp objects penetrating the sole and entering the foot.

### SAFETYcell® Protection

Fully integrated protective shell offers enhanced abrasion and cut resistance from harsh working conditions.

Water Resistant leather

Waterproof footwear

Toe Bumper

HEELguard

Hi-Vis Reflective Safety Trim

Snug Fit Heel Contour System

## COMFORT FEATURES

### COMFORTcushion® Impact Absorption

Provides superior cushioning and shock absorption helping to reduce foot, leg and back fatigue.

### NANO/ite® Footbed

Massages feet as you walk, offering ultimate comfort and enhancing blood flow to reduce fatigue.

### NATUREform® wide profile Type 1 safety toe cap

Offers a wide profile shape for greater comfort and ensuring toes are not in contact with the toe cap.

### Antimicrobial Technology

Revolutionary anti-bacterial solution provides protection against odour, staining and deterioration caused by bacteria, fungus and other micro-organisms.

### SOFTstride® Contour Comfort Support

Low density urethane foam contours to the individual foot shape to provide ultimate comfort and support.

## TOE CAP FEATURES

### Steel Safety Toe Cap

Type 1 Steel toe cap offers protection against drop and crush injuries. Developed to withstand a force of 200 joules.

### Composite Safety Toe Cap

Non-Metallic Type 1 toe cap protection against drop and crush injuries. Lightweight and airport friendly. Developed to withstand a force of 200 joules.

## SLIP RESISTANCE

### Slip Resistant Sole

The following abbreviations provide information about slip resistance ratings:

**SRA:** Slip resistance tested on ceramic tile floor with sodium lauryl sulphate (SLS) solution.

**SRB:** Slip resistance tested on steel floor with glycerol.

**SRC:** Slip resistance tested on both ceramic tile floor with SLS solution and steel floor with glycerol.

# 45 SERIES | DUAL DENSITY PU / TPU FOOTWEAR

**COMPLIES WITH**

AS 2210.3:2019  
EN ISO 20345:2011  
ASTM F2413-18

**COMFORTcushion®** Impact Absorption System uses a combination of cellular urethane and PORON<sup>1</sup>

Full lining infused with eco friendly Odorban<sup>2</sup> Control Technology to absorb odour for optimum freshness and hygiene

Long wearing TPU outsole designed to self clear rocks and debris from tread. Excellent abrasion resistance

Latex toe cap liner for added comfort  
Protection strip

Water resistant leather

Bevelled heel for excellent slip resistance

Stabilising and support shank

Shock absorbing Polyurethane midsole

Oliver Comfort Footbed enhances natural air flow; infused with Odorban<sup>™</sup> Control Technology.

Oliver SOFTstride® open cell low density urethane foam for comfort and contour support

<sup>1</sup> PORON® 2013 Rogers Corporation. All Rights Reserved  
<sup>2</sup> © Devan Chemicals NV 2015

## 45 SERIES COMFORT TECHNOLOGY

### Odorban<sup>™</sup> Control Technology

The Oliver Comfort System footbed now includes Odorban<sup>™</sup> Control Technology for greater comfort. This anti microbial solution controls the bacteria that cause odour, stains and product deterioration. The new comfort footbed also has perforated air channels to promote natural airflow to the feet and help maintain freshness.

### COMFORTcushion® Impact Absorption System

**COMFORTcushion®** uses a combination of cellular urethane and **PORON®** performance cushioning to protect the heel and ball of the foot by providing superior cushioning and shock absorption... reducing foot, leg, and lower back fatigue.

### Oliver SOFTstride® Comfort System

Oliver **SOFTstride®** Comfort System works to soften and absorb the impact on the foot stride after stride. A layer of open cell low density urethane foam built into the insole contours to the individual foot shape to provide ultimate comfort and support. The unique Oliver **SOFTstride®** gives added reassurance to help you get through those long hours on your feet.

### Non Metallic Composite Toe Cap Technology

Oliver has pioneered a new innovative Hi-Impact Non-Metallic Composite type 1 toe cap which is more than 40% lighter than traditional steel toe caps and still exceeds the Australian Standard AS 2210.3.

## 45-632Z

### 150MM WHEAT ZIP SIDED BOOT

- Water resistant nubuck leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic
- Convenient side zip

Sizes: 5 - 14, 6½ - 10½

EXTRA FEATURES:

## 45-652Z

### 150MM STONE ZIP SIDED BOOT

- Water resistant nubuck leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic
- Convenient side zip

Sizes: 5 - 14, 6½ - 10½

EXTRA FEATURES:

**NEW  
RELEASE**

## 45-645Z

### 150MM BLACK ZIP SIDED BOOT

- Water resistant full grain leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic
- Convenient side zip

Sizes: 5 - 14, 6½ - 10½

EXTRA FEATURES:

## 45-632

### 150MM WHEAT LACE UP BOOT

- Water resistant nubuck leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic

Sizes: 5 - 14, 6½ - 10½

## 45-645

### 150MM BLACK LACE UP BOOT

- Water resistant full grain leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic

Sizes: 5 - 14, 6½ - 10½

**COMFORT GUARANTEE†**

† Must produce dated receipt and guarantee tag

Try a pair of correctly fitted Oliver AT45 Boots for 30 days and, if you are not completely satisfied, return them to the specialist dealer you bought them from for exchange or refund. †

airport friendly**

## SOLING TECHNOLOGY

### AT's All Terrain TPU Soling Technology

- Lightweight, shock absorbing low density PU (Polyurethane) midsole which cushions the foot on impact to provide unmatched comfort and help reduce foot, leg and lower back fatigue.

- High density hard-wearing TPU (Thermo Plastic Urethane) outsole provides superior grip and abrasion resistance.
- Heat resistant outsole to temperatures of 130° Celsius.
- Electrical Hazard (EH) Protection.

- Reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18.
- Resistant to most oils, acids and chemicals.
- Superior resistance to abrasion,

- splitting and cracking.
- Superior slip resistance, rated SRB.
- Will not mark floors.

## COMFORT TECHNOLOGY

**COMFORTcushion**® Impact Absorption

**NATUREform**® wide profile Type 1 safety toe cap

Water Resistant leather

Steel Safety Toe Cap

Toe Bumper

**NANOlite**® footbed

Antimicrobial Technology

**SOFTstride**® Contour Comfort Support

**HEELguard**®

### NANOlite® Technology

The Oliver Comfort System now has a unique **NANOlite**® footbed for greater comfort and well-being. The gently raised surface of the sole massages your feet as you walk, promoting greater blood flow to help reduce fatigue. Plus, a perforated foam air control layer enhances air circulation, reducing odour.

### COMFORTcushion® Impact Absorption System

Oliver's unique **COMFORTcushion**® uses a combination of cellular urethane and **PORON**® performance cushioning to protect the heel and ball of the foot, providing superior cushioning and shock absorption at the heel. This constant impact absorption helps reduce foot, leg and lower back fatigue.

### NATUREform® Type 1 Toe Cap

Oliver **NATUREform**® toe caps have a wide profile shape to suit your foot and are padded with a latex cushion liner to ensure toes are comfortable and not in contact with the cap. Oliver boots with **NATUREform**® caps are licensed to the Australian Standard AS 2210.3.

### Oliver SOFTstride® Comfort System

Oliver **SOFTstride**® Comfort System works to soften and absorb the impact on the foot stride after stride. A layer of open cell low density urethane foam built into the insole contours to the individual foot shape to provide ultimate comfort and support. The unique Oliver **SOFTstride**® gives added reassurance to help you get through those long hours on your feet.

## HYDROstop® PROTECTION

**HYDROstop®** offers a 3 year guarantee from date of manufacture against the effects of hydrolysis and microbiotic attack on the sole.

by Honeywell

## A PROUD TRADITION - FOUNDED 1887

Oliver Footwear, Australia's leading Safety Footwear Manufacturer owes its origins to gold mining in the Victorian provincial city of Ballarat.

Our founder James Oliver, a boot-maker by trade, came to the goldfields of Ballarat, then amongst the richest alluvial and underground mining fields in the world, in the mid 1800's. His quest for the elusive nuggets was unsuccessful, so he returned to the trade of boot-making which he had learned in the U.K.

Established as the business of Oliver & Stevens, the new venture commenced producing tough and durable boots for miners and farmers in 1887.

The same entrepreneurial streak which marked the establishment of the business in 1887 continues today with Oliver Footwear building on its commitment to footwear product design in Victoria, Australia.

Product research and development to address the needs and demands of tough workplace safety environments will always be a central part of our company philosophy.

1938 - Jack Oliver's 60 Bridge Street Store.  
This photograph was taken during Ballarat's centenary celebrations.

**LOVE  
YOUR FEET  
MORE.**

Ongoing investment in manufacturing technology, business systems and people ensures that Oliver continues to adopt world's best practice in all parts of the business.

Oliver is now part of Honeywell Industrial Safety which offers not just the world's most comprehensive lines of Personal Protective Solutions but the most respected brands that make workers embrace safety on their own.

## COMFORTcushion® Impact Absorption System

COMFORTcushion® uses a combination of cellular urethane and **PORON®** to protect the heel and ball of the foot by providing superior cushioning and shock absorption, reducing foot, leg, and lower back fatigue.

## Odorban™ Control Technology

The Oliver Comfort System footbed now includes **Odorban™** Control Technology for greater comfort. This anti microbial solution controls the bacteria that cause odour, stains and product deterioration. The new comfort footbed also has perforated air channels to promote natural airflow to the feet and help maintain freshness.

## GRIPthane® Dual Density Polyurethane sole

- Lightweight shock absorbing low density PU midsole extends deep into the cleat which not only assist with surface grip, but also provides cushioning to absorb the shock of rough surfaces.
- Hard wearing PU outsole is designed for superior grip and durability
- Heat resistant outsole to temperatures of 130° Celsius

- Electrical Hazard (EH) Protection reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18
- Resistant to mineral and organic oils and acids
- Superior resistance to abrasion and cutting
- Excellent slip resistance, rated SRC

---	---------------	--

### SOLING TECHNOLOGY

#### 22 Series PVC / Nitrile Soling Technology

The WB 22 series sole consists of a hard wearing heavy duty PVC / Nitrile sole that offers extra deep tread for greater stability and grip on uneven and loose surfaces.

#### WB's 22 Series PVC / Nitrile soling technology offers:

- Heat resistant to temperatures of 130° Celsius.
- Excellent slip resistance, rated SRC.
- Resistant to solvents, mild acids, alkalis, some chemicals, oils and fats.
- Will not mark floors.
- Electrical Hazard (EH) Protection. Reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18.

# 22 SERIES

## COMFORT TECHNOLOGY

#### NANOlite® Technology

The Oliver Comfort System now has a unique **NANOlite®** footbed for greater comfort and well-being. The gently raised surface of the sole massages your feet as you walk, promoting greater blood flow to help reduce fatigue. Plus, a perforated foam air control layer enhances air circulation, reducing odour.

#### NATUREform® Type 1 Toe Cap

Oliver **NATUREform®** toe caps have a wide profile shape to suit your foot and ensure toes are comfortable and not in contact with the cap. Oliver boots with **NATUREform®** caps are licensed to the Australian Standard AS 2210.3.

#### METprotect® Metatarsal Protection

Oliver patented **METprotect®** metatarsal protection offers revolutionary inbuilt design technology to protect the impact strike zone. The enhanced design offers comfort and flexibility not afforded by traditional metatarsal protection materials.

#### STEELflex® Protection System.

Steel midsole protection reduces the risk of sharp objects penetrating the sole and entering the foot. A thin protective shield is inserted in the midsole providing safety while retaining comfort and flexibility of the sole. Meets requirements of Australian Standard AS 2210.3.

# 40 SERIES | ACTIVE RANGE EVA MIDSOLE / RUBBER OUTSOLE

**PREDICTIVE WEAR FEATURE:**  
The patented wear off indicators help identify when replacement is due.

**COMPLIES WITH**

### Shock Absorber Footbed

Oliver's Shock Absorber Footbed is breathable, anti-bacterial and supports the heel and ball of the foot with uncompromising comfort. Superior cushioning provides absolute shock absorption to reduce the impact of each step on the body.

### Electrostatic Discharge (ESD) Protection

Specially built into footwear to limit build-up of electrostatic charges to protect wearers from damaging sensitive electronic equipment or igniting flammable materials.

### Predictive Wear Feature

Patented wear-off indicators added to the sole provides an early warning on sole wear and potential loss of grip, aiding in timely identification when replacement is due.

NATUREform® composite toe cap

**40% LIGHTER**

### Non Metallic Composite Toe Cap Technology

Oliver has pioneered a new innovative Hi-Impact Non-Metallic Composite type 1 toe cap which is more than 40% lighter than traditional steel toe caps and still exceeds the Australian Standard AS 2210.3.

## MANUFACTURER'S WARRANTY

Oliver stands for quality, comfort and protection. That's why our safety footwear is backed by a 6 month Manufacturers warranty... the Oliver Promise.

Oliver leather safety shoes and boots are warranted for six (6) months from the date of purchase against defective workmanship and/or materials when used under normal conditions for the purpose intended. The warranty is void if in the opinion of Oliver that the product has been misused or subject to excessive wear and tear including exposure to chemicals, cement, lime or heat

if the footwear has not been designed to be used in these environments.

As a requirement of this warranty the purchaser must present the footwear and provide evidence of purchase. Please return the footwear to the place of purchase.

The footwear will then be returned to Oliver for inspection by an authorized Oliver employee. If the footwear is defective they will be repaired and returned where possible, otherwise replacement footwear will be provided by Oliver.

This warranty is in addition to, and does not limit consumer's statutory rights.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
