SAFETY PRODUCTS CATALOGUE VOL 19

The Benefits of Steeldrill Gloves Treated With ***ULTRA FRESH*** Anti Bacterial

Ultra Fresh provides a major preventative for Industrial Dermatitis

Products containing Ultra Fresh can effectively control bacteria, fungi, mould, mildew & algae.

Ultra Fresh is tested by national and international regulatory bodies and is supported with a 50 year track record of safety & efficacy.

Ultra Fresh is used worldwide as an effective step to creating a healthier environment.

- Dermatitis Preventative
- Lasting Hygienic freshness
- Resist deterioration & degradation caused by fungi & bacteria
- Have longer life than untreated products
- Provide effective odour protection

Laboratory tests have shown that Ultra Fresh inhibits a wide range of bacteria including:

- Bacillus cereus
- Bacillus subtilise
- Enterobacter aerogens
- Escherichia coli
- Klebsiella pneumonia
- Proteusvulgaris
- Pseudomonas aeruginosa
- Pseudomonas fluorescans
- Salmonella cholersaesuis
- Staphylococcus aureus
- VRE
- MRSA
- Listeria
- Streptococcus faecalis
- Streptovercillium reticulum

<u>Welding Apparel, Curtains, Blankets and Tapes</u>	81

1. Supplies products and services to its customers with the objective of meeting and exceeding all their specified and implied requirements for quality, price and delivery.
2. Only purchases material, components and services from suppliers who have the capability of consistently meeting the company's requirements for quality, as well as price and delivery.
3. Subjects purchased materials to sufficient inspection to ensure conformity to specified requirements including environmental and health and safety criteria.
4. Exercises control over all processes carried out, both by the company and its subcontractors to ensure that the company's products and services conform to specified requirements, while reducing internal nonconformances to an absolute minimum.
5. Provides facilities, training and encouragement to enable employees to ensure the quality of their own work.
6. Maintains a quality management system that conforms to the requirements of ISO 9001:2015.
7. Carries out reviews and internal audits on all aspects of its quality management system, including its objectives and policy at regular periods and takes effective corrective and preventive action wherever deficiencies in the system are found or where improvements can be made.
8. Maintains an ongoing continuous improvement program for all aspects of its operations.
9. Maintains an efficient documentation and records system to provide objective evidence that the company's quality management system is functioning in accordance with this Policy.
10. Provides an overall environmentally safe and healthy workplace that promotes and pursues ongoing quality, health, environmental and productivity improvements.

- Helps Prevent Industrial Dermatitis

Customer Commitment

Steeldrill Health & Safety specialises in the highest quality industrial safety products and medical consumable items. With over 18 years of experience and industry knowledge, Steeldrill services clients ranging from small businesses through to corporations and government entities, including public and private hospitals.

The onward referrals and recommendations that we receive from our clients are our strongest asset. The company goes to the same lengths to ensure that our customers' requirements are met on-time, every time. We hold ourselves accountable to the highest standards that matter, our customers.

At Steeldrill, we pride ourselves on our ability to offer our customers off-the-shelf products, as well as custom-made items specifically designed for an individual requirement.

As a matter of principle, flexibility in design & manufacture is the key to our ongoing success. This is only made possible as we have key personnel based at all our major manufacturing sites, who can stipulate the precise requirements of our customers, directly with the design departments.

Steeldrill partners exclusively with the world's most state-of-the-art factories. These leaders in their particular fields - from disposable examination gloves, disposable garments, hygiene to medical protective eyewear & shields - means that we can bring the best of what's on offer.

Safety and security are our foremost concerns. That's why every Steeldrill product is subject to rigorous testing by leading, global authorities. These include SGS, FDA, SAI Global and many, many others. We go further to ensure that all our products are certified, or are in full compliance to numerous standards such as AS/NZS, HACCP, AAMI, CE & NIOSH. And our track record acts as our guarantee.

As further assurance to you and your patients, Steeldrill's Products are all listed with - and regulated by - the Australian Register of Therapeutic Goods where applicable.

Steeldrill continuously strives to improve our world-class standards, to stay ahead of the competition. Our business is a Certified Quality Assured company, to ISO9001:2015, and we continually innovate in order to ensure that our service is conducted in accordance with ISO9001.

Steeldrill has conceived, conceptualised and created a complete range of the following products:

- Eye protection
- Hand protection
- Head protection
- Hearing protection
- Disposable gloves
- Disposable respiratory
- Disposable & cleanroom garments
- Hygiene products
- Rainwear
- Welding apparel, curtains, blankets & tapes

GLOVE STANDARDS AND ASSOCIATED MARKINGS

Standard	Pictogram	Description
BS EN 374 Micro-organisms		Resistance to penetration by micro-organisms
BS EN 374 Chemical Hazards		Resistance to chemical permeation
BS EN 388 Mechanical Hazards		A: Abrasion C: Coup Cut T: Tear P: Puncture S: ISO Cut I: Impact Test
		Impact cut
		Static electricity
BS EN 407 Thermal Hazards		a) Burning behaviour b) Contact heat c) Convective heat d) Radiant heat e) Small splashes of molten metal f) Large splashes of molten metal
BS EN 511 Protection From Cold		a) Resistance to convective cold b) Resistance to contact cold c) Permeability to cold water
BS EN 421 Radioactive Contamination		Resistance to ionising radiation (the amount of lead in the glove is marked on it)

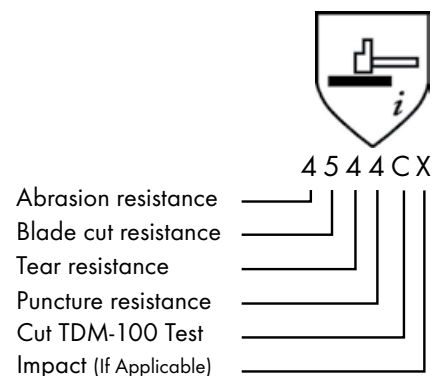

EN388 MECHANICAL RATINGS

This diagram details the testing categories for BS EN388:2016.

A tested item is given a performance rating of 1 to 4 (lowest to highest) on some or all of the listed categories. The 'blade cut resistance' test is an exception, as it measures from 1 to 5.

An ISO Cut rating of A to F and an Impact test (If Applicable) of either P (Pass) F(Fail) or X(Not Tested)

Frequently, an 'X' will replace one or more of the numbers. This means that the corresponding test was not performed.

DISPOSABLE RESPIRATORY

TITAN
RESPIRATORS

***Protect yourself with a
"TITAN"***

DEFINITIONS	
Dust	Solid particles ranging from visible to non-visible to the naked eye usually resulting from grinding, sanding etc.
Fumes	Metal particles usually given off when welding, smelting or heating metals.
Mist	Small liquid droplets usually generated when spray painting or mixing.
Gas	Invisible airborne substances such as Carbon Dioxide, Chlorine, Ammonia etc
Vapours	Similar to "gas" but formed via evaporation i.e. methylated spirits

TITAN P1 DISPOSABLE RESPIRATOR

CODE: 600610

PK: 20

CTN: 240

SPECIFICATION:

- Certified to AS/NZS 1716:2012 P1 Standards with SAI Global Lic No SMK20566.
- Conical design, sealed edge avoids open layers and eliminates the possibility of irritation.
- Low breathing resistance for increased wearer comfort. Soft edges fit different facial shapes with minimum leakage.
- Polypropylene (PP) outer/inner layers provide smooth lining and comfortable feel.
- Heavy duty, non - latex, adjustable head straps.
- Moulded nose piece with soft foam nose insert.

APPLICATION:

Glass, cement, lead, textile, grain, sanding, building, farm work.

AS/NZS 1716 Certified
Lic No. SMK20566 SAI Global

TITAN P1 VALVED DISPOSABLE RESPIRATOR

CODE: 600613

PK: 10

DESCRIPTION:
 Surgical mask 3 ply latex free with ear loops/ties.
 General purpose.
 Size 17.5cm x 9.5cm

CODE: 600002

PK: 50
CTN: 1000

ARTG No. 121435

SURGICAL MASKS – SUBMICRON LEVEL 2

CODE: 600003 - Ear loops
Code: 600004 - Ties

DESCRIPTION:
 Surgical mask 3 ply latex free with ear loops/ties.
 Submicron efficiency.
 Size 17.5cm x 9.5cm

PK: 50
CTN: 1000

ARTG No. 121435

SURGICAL MASKS – FLUID RESISTANT ANTI FOG LEVEL 3

CODE: 600005 - Ear loops
CODE: 600006 - Ties

DESCRIPTION:
 Surgical mask 3 ply latex free with ear loops/ties. Fluid resistant efficiency and anti fog.
 Size 17.5cm x 9.5cm

PK: 50
CTN: 1000

ARTG No. 121435

SURGICAL MASKS – FLUID RESISTANT ANTI FOG WITH SHIELD LEVEL 3

CODE: 600007 - Ear loops
CODE: 600008 - Ties

DESCRIPTION:
 Surgical mask 3 ply latex free with ear loops/ties.
 Fluid resistant efficiency and anti fog with protective shield.
 Size 17.5cm x 9.5cm

PK: 50
CTN: 500

ARTG No. 121435

Leather welding sleeves.

WELDING CURTAINS & SCREENS

Steeldrill Welding Curtains provide protection from dangerous Ultra Violet radiation, from low to very high amperages, in excess of 1300 amps.

Curtains are available in three colours;

Yellow – normal visible light penetration. 15%
 Red – normal visible light penetration. 3.5%
 Green – normal visible light penetration. 3.5%

Features of Welding Curtains.

Transparent, enabling welder observation for safety purpose. Brighter working environment.
 Decreases arc glare.
 Eliminates closed-in feeling.
 High quality plasticiser maintains pliability in winter.
 Fire retardant to AS 1441.13
 Meets requirements of AS3957/NZS5852UV Stabilised.
 Electronically welded hems, seams & eyelets.

Features of Welding Screens

Heavy duty steel tube 25.5 x 25.5mm, wall thickness 1.7mm.
 Hot dipped galvanized with Polymer top coat.
 Internally coated with zinc silicate.
 Superior tube connectors, core 1.5mm walled steel tube, coated with 5mm impact resistant ABS and Nylon industrial swivel casters, 50mm solid wheels with brakes.
 360 Degree hinges on multi panel screens.
 All curtains for frame systems are in one piece, no risk of flash burn through gaps between panels.

Curtains and screens can also be made to order.

WELDING CURTAINS
