

3M combines Best-in-class Technologies & Unique Product Design to Offer you More Protection!

Safety First. An all-in-one solution for integrated protection.

Integrated protection for multiple hazards

- The 3M™ Versaflo™ Helmets M-300 Series can offer integrated protection from a range of respiratory, head, eye, face and hearing hazards as well as the ability to communicate.
- The new 3M™ PELTOR™ Microphone (MT53V or MT7V), located inside the M-300 helmet, allows hands free communication (if VOX) that is designed to reduce the need to raise the visor while ensuring respiratory protection to the user.

Simplicity & convenience

- **Expertise x 3:** 3M™ Versaflo™ Helmets M-300 Series with 3M™ PELTOR™ Communications Solutions combines Respiratory, Hearing & Communications expertise from 3M.
- **A NEW Experience of Protection!** This highly versatile solution gives you many options for air delivery units, microphone type or 2 way communication headsets.
- **Easy-to-use:**
 - The Microphone includes 3 adjustment points to allow to fit most head sizes.
 - The Microphone can be fitted to any 3M™ Versaflo™ M-300 helmet with a simple snap fit connection.

3M™ VersaFlo™ Helmets M-300 Series now available with 3M™ PELTOR™ communication solutions!

M-300 Series Helmets meet the highest powered respirator performance requirements for this type of product when used with specific 3M™ Air Delivery Units. Now able to be used with 3M™ PELTOR™ headsets, M-300 Helmets offer you the possibility to communicate effectively whilst protecting your hearing in noisy environments.

reddot design award
honourable mention 2011

Typical Applications

- Smelting & foundry applications
- Grinding
- Chemical processing & plant maintenance
- Agricultural applications
- Construction & renovation
- Demolition

Highly Versatile Rigid Headtops

- Head protection that complies with AS/NZS1801 Type 1 Industrial Safety Helmet
- Integrated protection from multiple hazards (e.g. respiratory, impact, splash hazards)

Modern, Well Balanced Design

- Lightweight with excellent balance
- Fully-adjustable head suspension
- A deflector allows users to direct the airflow inside the headtop for increased control and comfort

Visor Design

- Visor design combines excellent peripheral and downward vision with good optical clarity
- Lenses provide chemical and scratch resistance

2 options of built-in microphones:

- Dynamic
- Electret

Compatible with a variety of 3M™ PELTOR™ Communication solutions including standard headsets and models featured with in-built 2-way radio, level dependent function and Bluetooth connectivity. Except models ending in -77.
